Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1 and 16 are allowable because the prior art of record fails to disclose or suggest or teach the recited insulation layer providing a physiological protection against burns and designed such that the heat flow from the adsorbent through the outside wall of the third cavity and through the external insulation layer is larger or equal to the heat flow from the adsorbent towards the second and first cavities during operation of the device (see claim 1); avoiding heating back of cooled product within the first cavity by allowing the heat flow from the adsorbent through the outside wall of the third cavity and through the external thermal insulation layer to be larger or equal to the heat flow from the adsorbent towards the second and first cavities; and avoiding excessive external temperature of the third cavity containing the adsorbent by allowing a thermal gradient across the insulation layer ranging from 20 to 50 degree C (see claim 16)..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad M. Ali whose telephone number is 571-272-4806. The examiner can normally be reached on maxiflex.
